

Research in Chemistry
2023 Research Experiences for Undergraduates
May 21 – July 28
West Virginia University

Experience a unique combination of **multidisciplinary research, educational programs, community outreach** and **fun team-building activities**. Participants are involved in ongoing research programs in the fields of **chemistry and biochemistry** with applications to disease detection and treatment and pharmaceutical synthesis.

STIPEND: \$5,000/summer + room & board

Priority Application Review Begins January 20th, 2023.

Applications will be received until March 3rd, 2023.

Applicants should be rising Freshman through Senior undergraduate students majoring in chemistry or biochemistry. ***Underrepresented minorities, women, persons with disabilities, first generation students and veterans of the U.S. Armed Forces from primarily undergraduate institutions in West Virginia and the Appalachian region are especially encouraged to apply.***

Link to online application, information on specific faculty research interests, and other information on the NSF-funded Chemistry REU site can be obtained at:

<https://www.chemistry.wvu.edu/students/undergraduate-studies/undergraduate-research/reu-site-research-in-chemistry-at-wvu>

Due to the ongoing circumstances surrounding the COVID-19 pandemic, the ability for an onsite program may change at any time. Please note that WVU may cancel the 2023 REU Site if, in WVU's sole discretion, the state of the COVID-19 pandemic makes it impossible to safely hold the program.
